

Name Colonne attrezzate_Colonna con anta a battente CONVOY

Year

Description Specific 600 mm tall units with hinged doors are available to be equipped with Convoy mechanism. The pull-out structure is made of aluminium and black metal with 5 shelves, which should be fitted with wood trays, to be ordered separately. The mechanism is equipped with soft close device. The mechanism is connected to the cabinet door and is pushed out every time the door opens. The trays for accessorizing the shelves are made of black-stained ash wood and include: bottom in felt lining, tray for glasses/small cups, tray for pots/pans, larder tray with dividers, tray for bottles, tray for dishes with handles.
