Description	Material	Finish	Cleaning
TOPS IN FINELY-BRUSHED/ SCOTCH BRITE STAINLESS STEEL	AISI 304 Stainless steelsheet, with joined layers. Doublefronted with chipboard-particle panels, class 1 V100.	Scotch Brite presatinized steel.	Clean with a soft cloth or damp doeskin and dry well. Use products for stainless steel cleaning. Clean in the satin-direction. For stubborn stains use hot vinegar.
GRIDS IN (CAST-IRON)	Cast-iron fusion.	Lacquered with antirust treatment or enamelled.	Clean with hot water and dry well. Oil the grids before using them, they will maintain their original aspect and the treatment will make the cleaning easier.
PANELS IN POLYESTER	MDF panels. Polyester resin, painted with 3 x 320 g./mq. coats on each side.	Lacquered with resins in polyester, rubbed, polished and buffed.	Clean with window-products, or liquid detergents diluted with water . Rinse and dry immediately with a soft cloth.
PANELS IN SETASIL	Pre-treated MDF panels .	Lacquered with polyurethane lacquers with teflon microspheres.	Clean with window-cleaning products, or methylated spirits mixed with. Rinse and dry with a soft cloth.

N.B. For the electrical appliance : Check characteristics, use and maintenance in the instruction manual delivered with the device.

For waste disposal, please follow law in force.

The toxic/injurious parts are indicated with a marginal note in the material column.
