A way of living: a manifesto
of contemporary architecture

The Boffi *way of living* is made up of details, gestures and habits woven together into a rich tapestry. Boffi proudly narrates this story via the offering of interior systems where quality, leisure and consistency are fundamental values. The projects offer a comprehensive point of view, conveyed with a unique language that communicates simultaneously a visual and tactile aesthetic. The shapes of kitchens, bathrooms, shelving and wardrobe systems fill spaces with cutting-edge materials and functionalities that translate tradition and personal style into a new, modern vision. Living systems enhance the home through vibrant colours, practical compositions and architectural displays, creating a domestic setting where

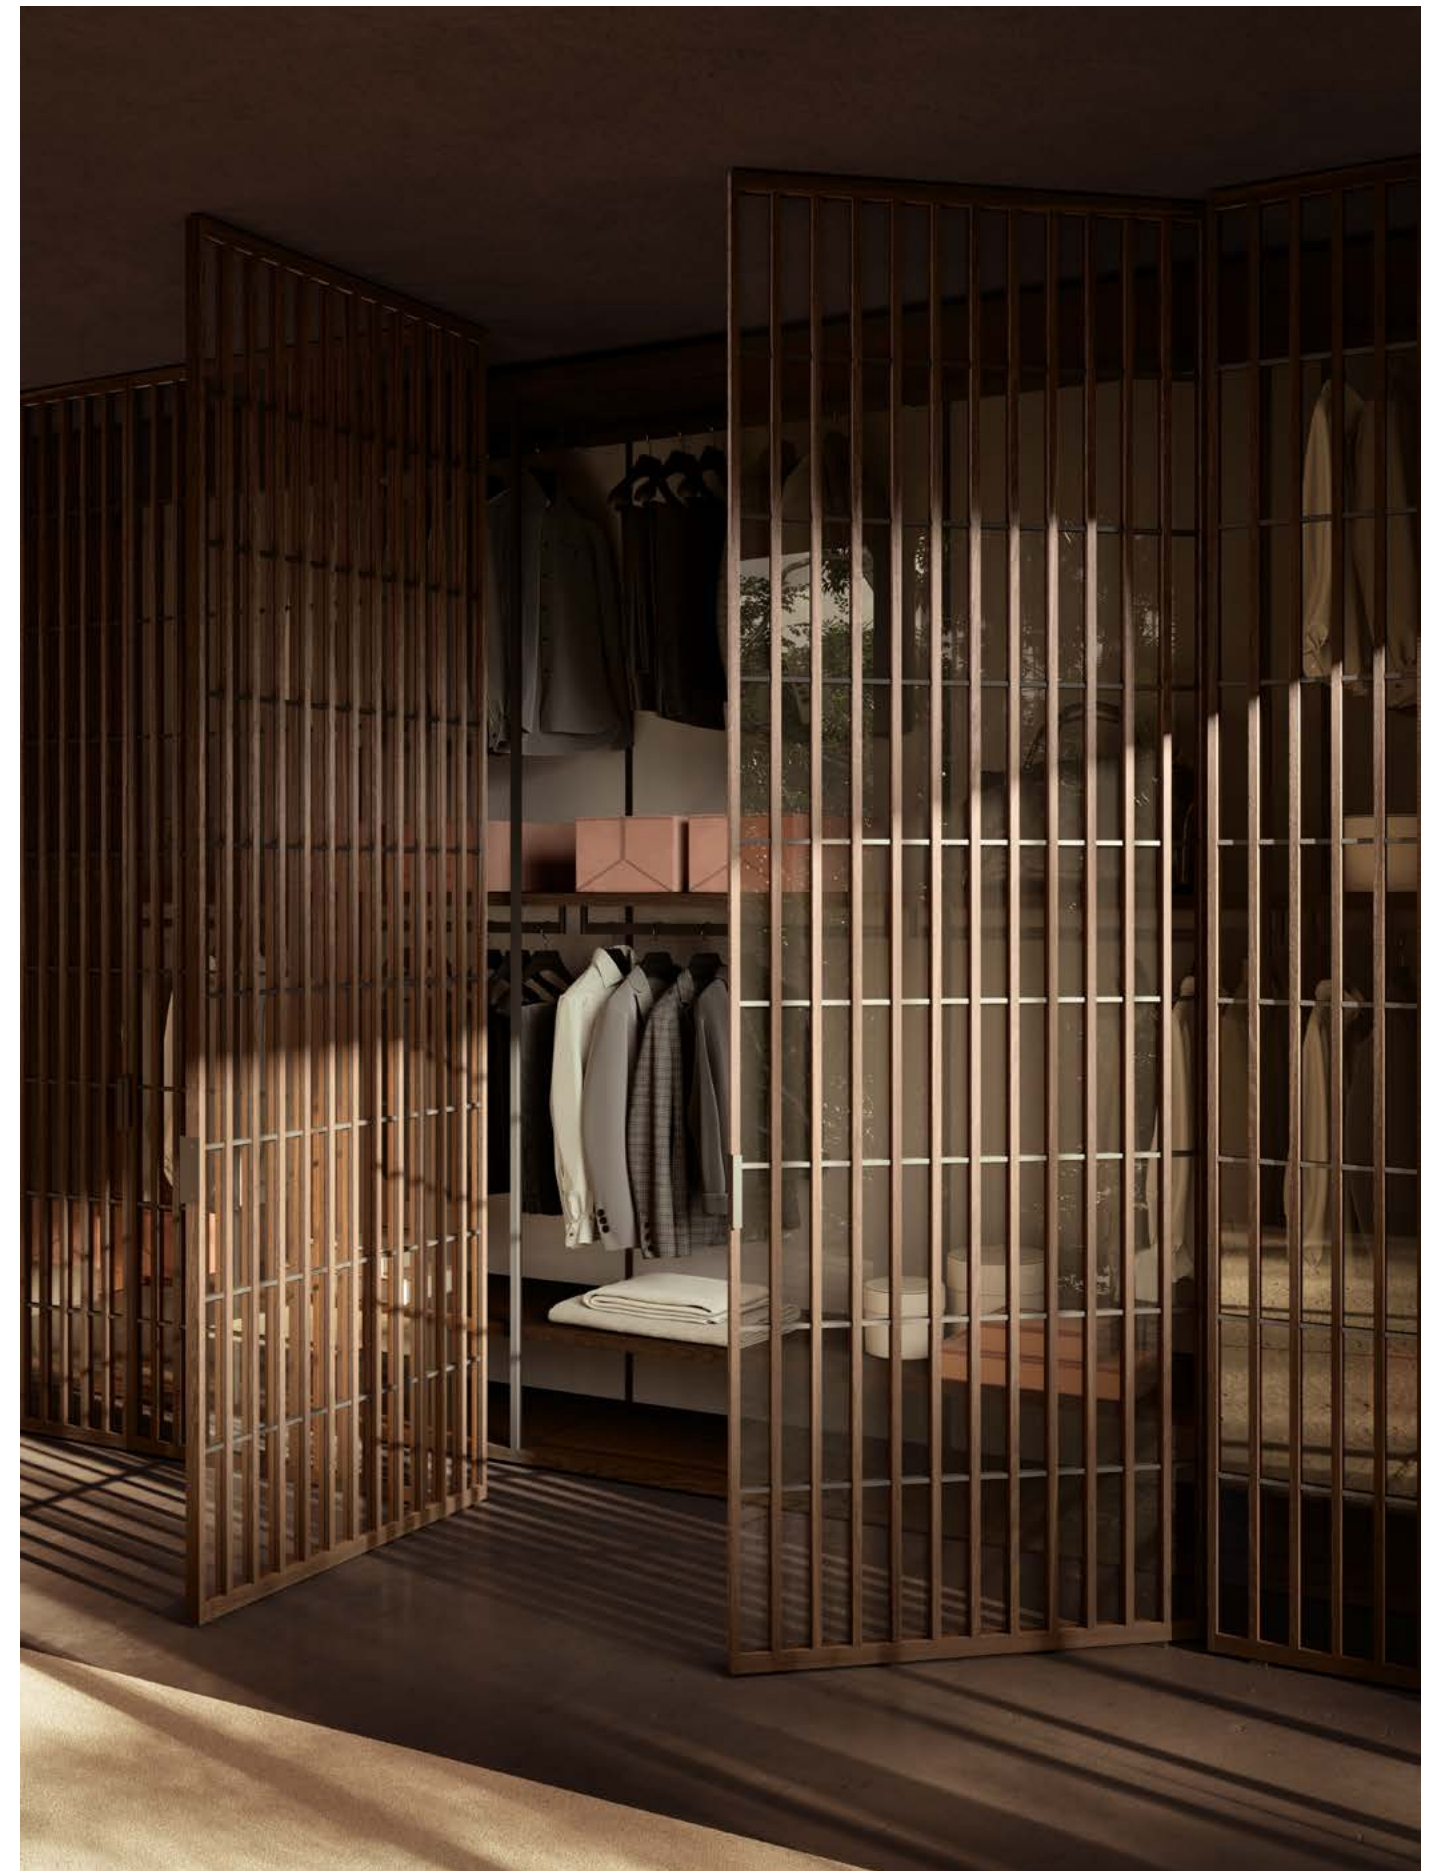

everything is connected by a common, almost imperceptible design thread. Flexibility and the intelligent use of interior space form the basis of the integrated design offer from Boffi. These two aspects are expressed by the brand in the way it develops not only individual products with a unique personality, but in the ability to put forth a complete project that conveys a distinct mood by merging different entities. This interior design philosophy allows for ambiances and environments that are in harmony with how people truly experience the home. It is a manifesto of contemporary architecture and a way of living that looks forward. We invite you to discover it.

Each Boffi product is made in Italy in accordance with ISO 9001:2015 regulations. The ISO 14001:2015 standards ensure the environmental impact at every stage of production. The quality and environmental policies provide continuous improvement actions that involve the entire organization. Boffi products are guaranteed for 3 years, as of the date of the guarantee certificate issue.

Some products shown in this catalogue may not be in the Boffi product listing. Modifications and improvements to products could vary from the solutions presented.
