## A WAY OF LIVING

Boffi, De Padova and ADL define a comprehensive and coherent vision of contemporary living rooted in a culture of excellence that brings together architectural rigor, advanced material research and sophisticated manufacturing know-how. This vision is grounded in a strong entrepreneurial and design heritage: Boffi, with over ninety years of history. De Padova, with seventy years of design culture. ADL, with more than twenty years of research and innovation in architectural systems for interiors.

Within this framework, Boffi interprets the most functional spaces of the home with kitchens, bathrooms and wardrobe systems conceived as true domestic architecture, where technology, material research and precise construction establish new standards of quality. De Padova completes this narrative with a sophisticated collection of sofas, tables, chairs, lighting systems and outdoor furnishings, where design, comfort and culture coexist in perfect harmony to create environments that are elegant, measured and timeless. ADL, finally, develops door systems and architectural elements that interpret the partition between spaces as a design opportunity, one that defines, separates or connects environments with lightness, technical precision and a strong aesthetic identity.

Entering a Boffi | DePadova home means immersing oneself in an architectural composition conceived to be lived in. It's a domestic narrative where technology and craftsmanship converge, transforming design into a spatial and sensory experience to create a truly authentic Way of Living.

## THE HORIZON BECOMES MATTER

The house unfolds through a system of measured, horizontal volumes that integrate seamlessly with the natural morphology of the terrain. Terraces, pathways and expansive water features establish a continuous connection between interior and exterior and between the human presence and nature in an ongoing dialogue centred around architecture and the landscape.

The surfaces echo the chromatic palette of the surrounding environment: sand, rock and Mediterranean vegetation are reflected in the dark wood of the brise-soleil, in the plaster and in the brick cladding of the architectural volumes. Large, glazed surfaces allow natural light to penetrate deep into the interiors, creating a visual continuity with the landscape.

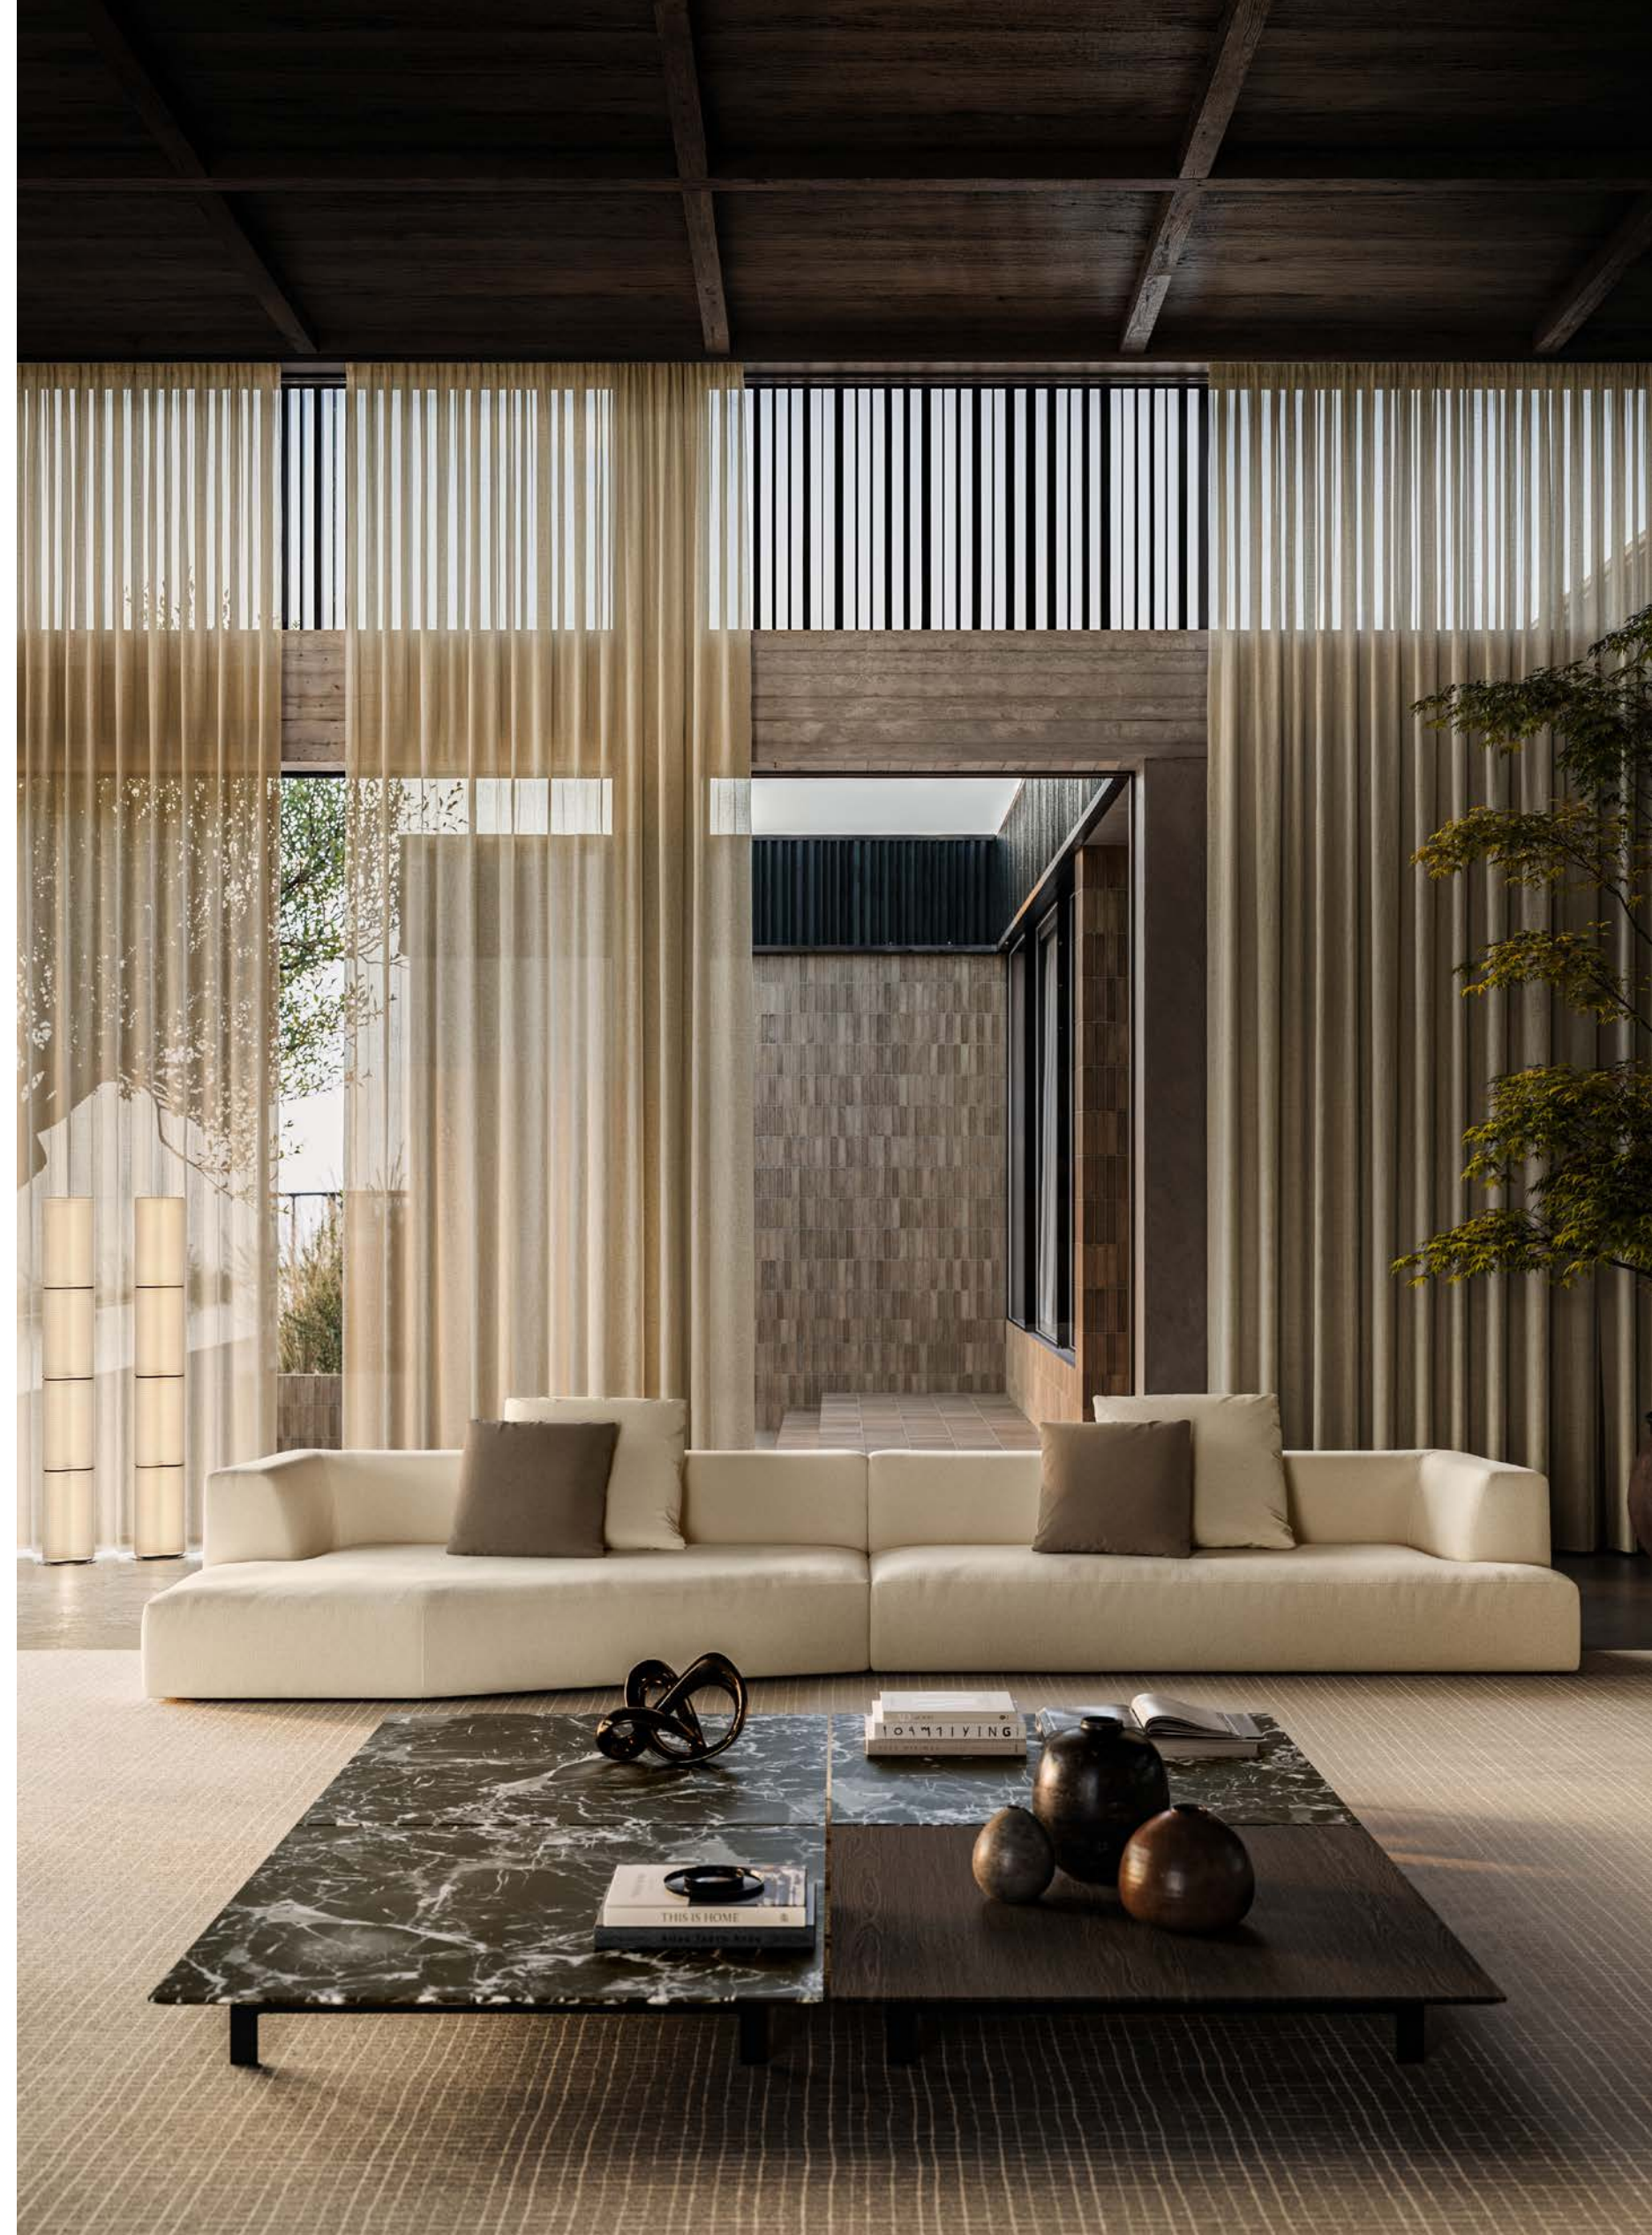

The indoor spaces develop around double-height living areas, where a coffered wooden ceiling introduces a rigorous architectural rhythm, while skylights integrated into the roof diffuse a soft, calibrated zenithal light. Space takes on an intimate and measured character. Defined by soft and modular volumes, the furnishings carve out multiple areas for conviviality and relaxation. The result is a quiet, contemplative architecture that enhances its setting and offers a living experience deeply connected to nature.
