MAKE YOUR PROJECT Wardrobe Collection

Margutta

Make Your Project, Introduzione

Questo catalogo tecnico è stato progettato come uno strumento pratico e completo, pensato per supportare architetti, progettisti e professionisti del settore nell'utilizzo e nella personalizzazione del sistema Margutta in tutte le sue varianti.

Il sistema si fonda su una struttura monospalla portante con fianchi pieni, che assicura solidità e grande libertà compositiva, consentendo configurazioni lineari, bifacciali o monofacciali. Margutta si presta a soluzioni su misura, adattandosi con precisione agli spazi e alle diverse esigenze funzionali.

Il catalogo offre una panoramica approfondita delle finiture, dei materiali disponibili e delle possibilità di integrazione con accessori interni, sistemi di illuminazione e moduli speciali. Completano il documento le sezioni tecniche con disegni quotati, pensate per facilitare ogni fase del progetto, dal concept iniziale fino alla realizzazione finale.

Make Your Project, Introduction

This technical catalogue has been designed as a practical and comprehensive tool, intended to support architects, designers, and industry professionals in the use and customization of the Margutta system across all its variants.

The system is based on a load-bearing single-sided structure with solid side panels, ensuring strength and great compositional freedom, and allowing for linear, double-sided, or single-sided configurations. Margutta is suited to bespoke solutions, adapting precisely to spaces and different functional requirements.

The catalogue provides an in-depth overview of finishes, available materials, and the possibilities for integration with internal accessories, lighting systems, and special modules. The document is completed by technical sections with scaled drawings, designed to facilitate every stage of the project, from initial concept through to final implementation.

MARGUTTA

La struttura di armadi e cabine armadio si compone di moduli, fianchi, ripiani e attrezzature, elementi progettati per integrarsi tra loro in combinazioni flessibili. Ogni componente è studiato per offrire soluzioni personalizzabili, in grado di rispondere a qualsiasi esigenza architettonica.

The structure of wardrobes and walk-in closets is made up of modules, side panels, shelves and equipment—elements designed to integrate seamlessly into flexible combinations. Each component is carefully designed to offer customizable solutions that can meet any architectural requirement.

Dettagli tecnici

Technical details

Cerniere per anta a battente

Realizzate in lamiera di acciaio stampata di spessore 1,2 mm con richiamo a molla in chiusura e apertura. Piastrine di fissaggio in lega pressofusa fissate al fianco in modo inscindibile. Regolazione in profondità, altezza e larghezza.

Modulo lineare: angolo di apertura 110° .

Modulo ad angolo: angolo di apertura 155°.

Hinges for hinged door

Hinges made of 1.2 mm thick moulded steel, with spring opening and closing device. Die-cast alloy fixing plates safely attached to the side. Depth, height and width adjustment.

Linear module: opening angle of 110 degrees.

Corner module: opening angle of 155 degrees.

Ogni elemento è studiato per ottimizzare lo spazio e rispondere con precisione alle esigenze di contenimento. Cassettiere e contenitori a giorno, porta pantaloni estraibili e aste appendiabiti, vassoi estraibili. Soluzioni su misura accolgono scarpe, gioielli, accessori e orologi, trasformando lo spazio interno in un ambiente funzionale e altamente personale.

Each element is designed to optimize space and precisely meet storage needs. Drawer units and open compartments, pull-out trouser racks, hanging rails, and pull-out trays. Custom-made solutions accommodate shoes, jewelry, accessories, and watches, transforming the interior space into a functional and highly personalized environment.

MARGUTTA Laundry

Il progetto Margutta Laundry di Boffi reinterpreta lo spazio lavanderia come un ambiente organizzato e integrato nell'architettura domestica. Il sistema, disponibile esclusivamente in nobilitato, si articola in una modulistica completa di pensili, basi e colonne, progettate per accogliere lavatrice e asciugatrice e per organizzare al meglio tutte le attrezzature dedicate alla lavanderia. Una soluzione essenziale e funzionale, pensata per garantire ordine, praticità e coerenza estetica.

The Margutta Laundry project by Boffi reinterprets the laundry space as an organized environment seamlessly integrated into the home architecture. The system, available exclusively in melamine, features a complete range of wall units, base units, and tall units designed to accommodate washing machines and dryers, while efficiently organizing all dedicated laundry equipment. An essential and functional solution, conceived to ensure order, practicality, and aesthetic coherence.

Finishes: White, Aluminium, Palladium, Lead, Ivory, Fog, Grey, Olive, Sand, Clay, Mud, Black

Su moduli con anta a battente doppia, maniglia solo su anta destra.
The handle is mounted only on right door in case of modules with double hinged door.

Margutta Laundry è proposta esclusivamente in nobilitato, in una selezione studiata per garantire coerenza estetica, qualità percettiva e versatilità progettuale. Il sistema consente di definire composizioni raffinate, valorizzate da dettagli metallici disponibili in due varianti, da scegliere in continuità cromatica o a contrasto.

The Margutta Laundry is available exclusively in melamine, in a selection designed to ensure aesthetic coherence, perceived quality and design versatility. The system allows for the creation of refined compositions, enhanced by metal details available in two variants, which can be selected in matching tones or in contrast.

NIMES

Cassettiera modulare

Modular drawer unit

Nimes è la cassettera Boffi pensata per essere collocata sia a centro stanza che a parete. Un elemento d'arredo progettato per rispondere alle esigenze di funzionalità e organizzazione degli spazi, combinando design essenziale e versatilità compositiva. Le molteplici dimensioni e configurazioni possibili rendono Nimes un sistema flessibile.

Nimes is the Boffi dresser designed to be placed either in the center of a room or against a wall. It is a furnishing element created to meet the needs of functionality and spatial organization, combining essential design with compositional versatility. The multiple available sizes and configurations make Nimes a flexible system.
